## About LungLife

LungLife AI is a developer of clinical diagnostic solutions designed to make a significant impact in the early detection of lung cancer, the deadliest cancer globally. Using a minimally invasive blood draw, the Company's LungLB<sup>®</sup> test is designed to deliver additional information to clinicians who are evaluating indeterminate lung nodules. For more information visit <u>www.lunglifeai.com</u>

Our Purpose is to be a driving force in the early detection to lung cancer. And our Vision is to invert the 20:80 ratio such that in years to come at least 80% of lung cancer is detected early.
